Steamjet ironing steam hair straightener
81M6

The boiler, separated from the heating body and tourmaline ceramic make this article extremely performing for a professional use. It smooths hair twice as fast as other hair straighteners, leaving them more lucid. Steam's flow and temperature are adjustable in order to satisfy all needs. Steam's flow is uniform along whole hair.

Professional facial steamer with ozone
98AR001

Ego Beauty facial steamer operates on the face opening the pores and cleaning it deeply. It facilitates blood's circulation and gives beauty and brilliance to the face by eliminating impurities. Once the steam goes through the pores, it makes easier fat skin's cleansing, balck spots and make-up remainings. The option STEAM (OZONO) needs to eliminate bacteria from the skin, keeping it alive, it softens, it allows cells' removal from dead skin and helps the pores to expel toxins. The boiler has inner thermostat and automatic switch-off in absence of water. Steam's jet is directable.
